

Solving the #1 Email Security Issue

With Harmony Email & Collaboration (HEC)

THE #1 TOOL AGAINST BUSINESS EMAIL COMPROMISE

Solve These Email Security Problems

Blocks Ransomware & Other Malware

Reduces Costs & Security Management

Covers all Business Comms, including Slack and Teams

Why Harmony HEC

- HEC is the **most advanced** and fastest-growing next gen email security solution available today.
- HEC is designed specifically for **cloud email** environments.
- HEC is the **ONLY** solution that **prevents**, not just detects/responds to, threats from entering the inbox.
- HEC is **designed to work with** O365, G-Suite, Slack, Teams, and more.
- HEC is **compatible** with all other networking and security tools.

Harmony HEC Differences

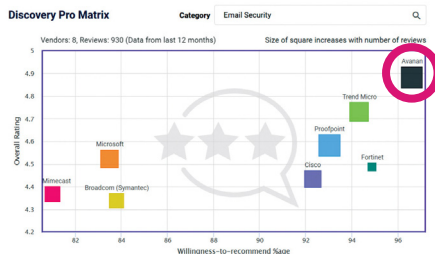

- Patented AI technology that stops attacks before they land in the inbox.
- 5-minute set up. Nothing to deploy.
- Works in parallel with existing tools.
- Works with all cloud email and collaboration platforms.
- Provides both prevention and post-delivery protection.
- Reduces phishing in the inbox by 99.2%.

Try it first! Set up a POC to see what your current environment is missing.

A Harmony demo take less than 5 minutes. The POC sets up in 15 minutes.

A POC shows results immediately, highlighting current missed threats and attacks.

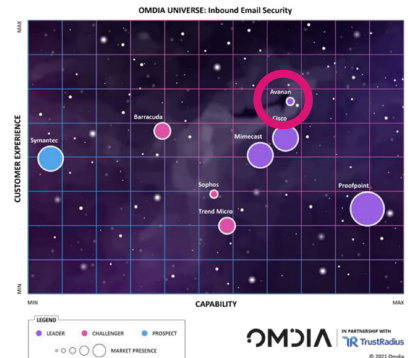

The Top Ranked Solution in Gartner Peer Insights*

The Top Ranked Solution in G2*

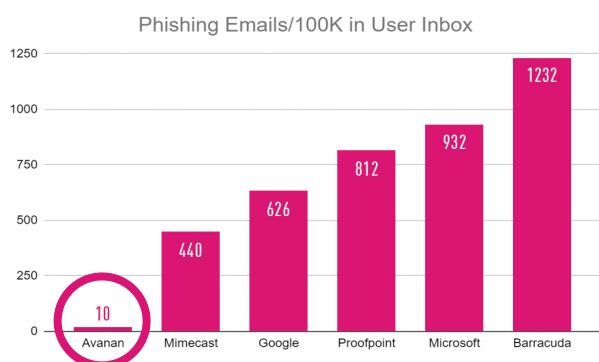

The Top Ranked Solution by Omdia*

Did you know:

- That **email is the #1 method** used by threat actors use for access to companies and standard malware protection doesn't provide sufficient protection?
- That Harmony HEC **compliments Microsoft O365** and G-Suite? Plus, their default security doesn't cut it?
- That Harmony HEC can **work with legacy** installs?
- The next most efficient product on the market let **440% more threats** into the inbox?
- All other email security solutions incorporate some element of human intervention, which takes more time and is more fallible. Harmony HEC's AI is always faster.

Harmony HEC (Avanan) can run in parallel with these other email security products.

Harmony HEC works with Microsoft O365 better than all other Email security solutions on the market today. Harmony HEC is the only email security solution that sits beside O365, G-Suite and email and collaboration suites without any element of integration competition.

* Avanan is now known as Harmony Email & Collaboration, or HEC

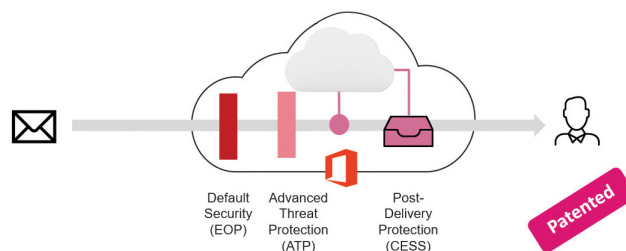

The Check Point Harmony Email & Collaboration Security Architecture

Our Architecture

- Embedded within O365 as a layer
- Last line of defense before inbox
- Built on cloud APIs

Provides Our Customers

- Better Security
- Time Savings
- Deployment in 5 minutes

Real Life F1500 Use Case Results

Better Security

- 99.9% reduction in phishing attacks reaching end users
- Internal to internal protection

Improved Efficiencies

- 99% of end user reports are processed within 5-10 minutes
- Only 3 end user reports required manual review
- SOC works on other things
- Solid integration with XSOAR
